

Freelance Backend Drupal Development Expert

BCF is looking for an experienced freelance Drupal web developer to assist our team with digital redesign projects for websites on Drupal. Hours will vary based on weekly workloads and project needs. The ability to work onsite in our Virginia Beach office is strongly preferred. We are looking for a Drupal Developer primarily responsible for back-end/module development and with experience in front-end development and theming. This position requires a combination of programming skills (PHP, HTML, CSS, JS, etc.) and aesthetics (understanding element arrangements on the screen, the color and font choices, and so on). The best candidates have a strong understanding of industry trends and content management systems. Experience with responsive and adaptive design is strongly preferred. In addition, an understanding of the entire web development process, including design, development and deployment, and core back-end knowledge, is preferred.

Responsibilities

- Mainly writing a lot of PHP and other server side languages.
- Writing customized modules, automated tests, automate deployment etc.
- Gets involved into some advanced side of the theme layer
- Helps formulate an effective, responsive design and turning it into a working theme.
- Work closely with back-end developers and customers to ensure an effective, visually appealing, and intuitive implementation.
- Experience developing web solutions in Drupal and PHP implementations in a LAMP environment
- Ability to architect enterprise Drupal solutions including data, display, and information architecture

- Advanced site-building experience including deep familiarity with Drupal modules such as CTools, Views, and Panels
- Experience creating custom Drupal modules
- Experience building responsive websites using Drupal CMS, HTML/HTML5, CSS/CSS3, and JavaScript/jQuery
- Knowledge of PHP, PHP files and theme functions, and knowledge of the Drupal theme layer
- Through understanding of the Software Development Lifecycle (e.g. Requirements, Design, Development, Testing) and exposure to Agile or iterative SDLCs
- Able to collaborate and work with other developers and interactive project managers
- Must have experience with upgrading from Drupal 7 to Drupal 8

Please email Cover Letter, Resume and a list of URLs to recent work to jstratton@bcfagency.com. Please include an hourly rate and your current availability with your response. Submissions without URLs of your previous live work will not be considered. No phone calls please.
